WORK EXPERIENCE /

TeachMeSkills Programming School

Frontend Deloveper (graduate)

January 2024 - September 2024

Skills:

-Designing websites and web applications with HTML, CSS (Flexbox, Grid)
-Writing clean, maintainable code in JavaScript (ES6+)
-Working with Git and GitHub for version control
-Developing applications in React (using JSX)
-State management with Redux and Redux Toolkit
-Development using TypeScript
-Working with Sass preprocessor

Result:

Project realization - Single Page Application for a bookstore

-Stack of used technologies: React components, Redux (store, selectors, reducers, actions), saga, router, types, TypeScript.

-API integration: pages with new book releases, pages with book information by ISBN, title search with pagination.

You can check out the project by following the link: https://github.com/nayavii/bookstore

October 2020 - May 2021

BrSTU

Marketing Specialist
September 2016 - November 2020

ABOUT ME /

-IT has always attracted me with its dynamism and the ability to realize creative ideas through technology.
-I chose frontend development because it allows me to combine my design skills with programming.
-For professional development I am constantly learning new tools and technologies, taking courses and realizing projects.
-In my free time I'm passionate about design, I like to travel and learn new things.
